Grading to Success

Introduction

PSIMS is a software solution that caters for grading, reporting and school admissions monitoring to ensure efficient and effective in junior secondary and primary Schools.

The following are the system's attributes and features;

- It is a computerized web based system
- student e-registration
- Keep records of student marks information
- Keeps of records of students payments history
- Provides student grades and reports analysis for management
- It's a role based system .ie teacher, IT, Deputy, School head menu
- Primary schools admissions and transfers
- E-stationary requests & Facilities inventory
- Admissions processing (Std 1 & Pre-School)
- Results processing, analysis and reporting
- Covid 19 Compliance Register for Student, staff and public

Quality Requirements

Usability: The system is well-formed and follow W3C standards and usability principles. The system provide simple and easy to learn interfaces.

Security: the system ensures informational privacy. For example, teacher can only edit the marks for the subject and class she/he is teaching, etc. The system provide access restriction to the authenticated users and only information views is accessed by individual user roles.. The database system will store voluminous records of clients securely
